

peachtree audio ds4.5

DS4.5 Loudspeaker Introduction

Congratulations on your purchase of the Peachtree Audio DS4.5 loudspeaker. Your new speakers represent the latest technologies in loudspeaker design and manufacturing. The drivers are all proprietary designs insuring the best possible sound and quality control. This is one reason for the extended bass response on the satellites as well as the overall balance and extended top-end bandwidth. The cabinet construction is MDF (Medium density fiber) covered in exotic real wood veneers.

The DS4.5 will provide outstanding performance and years of listening enjoyment.

Hookup is simple.

The positive (+) speaker wire from your amplifier attaches to the positive terminal on the DS4.5. Positive terminals are almost always color coded RED. The negative (-) speaker wire from your amplifier attaches to the negative terminal on the DS4.5. Negative terminals are almost always color coded BLACK.

Guarantee and Service

Peachtree Audio loudspeakers are guaranteed for a period of 5 years from the date of original purchase against manufacturing defects. Signal Path accepts no responsibility for defects arising from accident, abuse, wear and tear, modification or operation outside of specifications.

No warranty card is necessary. Your sales receipt from an authorized dealer will satisfy our requirements for warranty replacement parts. You may also register online at:

Website: www.signalpathint.com

Defective equipment

All speakers should be returned in its original packaging to the supplier, dealer, or the Signal Path service center. A local dealer can handle most speaker repair.

Era will not accept responsibility for damage or loss occurring during transit to or from the parties claiming under this guarantee.

In the unlikely event that you have a problem with any Peachtree Audio speaker, please call for return authorization number before returning products for service. Any speaker received without an RA number will be refused.
